

Government Polytechnic, Osmanabad.

First Progressive Assessment Test of Theory AY-2022-23

Program Name: Computer Engineering Program (CO)

Semester : Second (CO2I)

Course Title : Programming in C - 22226

Marks : 20

Duration: 1 Hour

Date : 16/03/2023

Instructions:

- (1) All questions are compulsory.
- (2) Illustrate your answers with neat sketches wherever necessary.
- (3) Figures to the right indicate full marks.
- (4) Assume suitable data if necessary.
- (5) Preferably, write the answers in sequential order.

Q.1 Attempt any FOUR.

08 Marks

- a) Explain Pre-Increment (++a) and Post-Increment (a++) operator with example?
- b) Draw flowchart for square of given number?
- c) Define Algorithm and write characteristics of it?
- d) Explain term variable and constant with Syntax and example?
- e) Draw flowchart for checking given number is positive or negative?
- f) Write algorithm to find whether given number is even or odd?

Q.2 Attempt any THREE.

12 Marks

- a) Develop a simple 'C' program for addition and multiplication of two integer numbers.
- b) Explain If-Else construct in C with Flowchart?
- c) Draw flowchart for finding of largest among three integer numbers?
- d) Explain Relational and Logical operators with example?
