

Government Polytechnic, Dharashiv.

First Formative Assessment of Theory (FA-TH) Test AY-2023-24

Program Name: Computer Engineering Program (CO)

Semester : Second (CO2K)

Course Title : Programming in C - 312303

Marks : 30

Duration: 1.5 Hour

Date : 13/02 /2024

Instructions: Question 1 and 2 are compulsory .

Q1	Attempt any Five (2x5)	Marks	CO
a	List any two conditional statements with its syntax	2	2
b	Draw flowchart for finding even and odd number?	2	1
c	Define Algorithm and write characteristics of it?	2	1
d	Explain printf() and scanf() function used in c language?	2	1
e	Write algorithm for checking given number is positive or negative?	2	2
f	Explain pre-increment and post-increment operator with example?	2	2
g	Explain sizeof() operator in c language?	2	1

Q2	Attempt any Five (4x5)	Marks	CO
a	Explain switch- case statement with example?	4	2
b	Write c program for printing 10 to 50 numbers?	4	2
c	Explain all logical operators with example?	4	1
d	Write c program to finding out sum of digits?	4	2
e	Write c program for printing factorial of a number?	4	2
f	Explain bitwise left, right, and, or, x-or operators?	4	1
g	Explain Do—while() loop with syntax and example?	4	2

---ALL THE BEST---
