

Government Polytechnic, Osmanabad.

Second Progressive Assessment Test of Theory AY-2022-23

Program Name: Computer Engineering Program (CO)

Semester : Second (CO2I)

Course Title : Programming in C - 22226

Marks : 20 **Timing: 04:30PM to 05:30 PM** **Date : 03 /05 /2023**

Instructions:

- (1) All questions are compulsory.
- (2) Illustrate your answers with neat sketches wherever necessary.
- (3) Figures to the right indicate full marks.
- (4) Assume suitable data if necessary.
- (5) Preferably, write the answers in sequential order.

CO N	Course Outcome(CO)
a	Develop Flowchart and algorithm to solve problems logically.
b	Write simple C programs using arithmetic expressions.
c	Develop C programs using control structure.
d	Develop C programs using Array and structure.
e	Develop /Use functions in C Program for modular programming approach.
f	Develop C programs using Pointers.

Q.1 Attempt any FOUR.

08 Marks

QN	Question	Marks	CO
a	State any two differences between while and do-while statement?	2	c
b	Define array. List its types?	2	d
c	State any two advantages of function?	2	e
d	Declare a structure student with element roll-no and name?	2	d
e	Explain use of Break and Continue?	2	c
f	Write the syntax of switch case statement?	2	c

Q.2 Attempt any THREE.

12 Marks

QN	Question	Marks	CO
a	Explain User defined function with example?	4	e
b	Write a program to swap two numbers using call by reference?	4	f
c	Write a program to accept five numbers in an array and display sum of array elements?	4	d
d	Write a program to perform addition, subtraction Of two integer number using function?	4	e
